

Christine Funck

CEO

Swiss Sustainable Yachts AG – AQUON Brand

Christine has a 20+year track record of successfully building, growing and leading businesses on an international level. Her executive roles in business and product management saw her responsible for the go-to-market strategies of BMW's MINI, and Bentley's Continental Range, before she brought her unwavering commitment to clients into banking as Executive Director UHNW Client Development with UBS. As CEO of Swiss Sustainable Yachts, she now leverages on her experience in complex project management, her affinity for

sustainable products, her entrepreneurial spirit, and passion for innovation. Christine holds a diploma in business from the European Business School and an MBA in Business Administration from Harvard University.

Franziska Steidle-Sailer

Strategic Market Development

Swiss Sustainable Yachts AG – AQUON Brand

From a family of sailors and with a background in commercial shipping and leisure yachting, Franziska brings a wide perspective of experience in the marine industry.

With the team of Swiss Sustainable Yachts, her purpose is to redefine the motor yachting market to be ready for a sustainable future, both in terms of propulsion, but going even further.

Before Swiss Sustainable Yachts, she spent four years with a dry bulk operator in Singapore developing their sustainability strategy and initiatives, as well with a yacht-sailing cruise operator Sailing-Classics in operation and business development. She holds an MBA in business strategy and sustainability from the University of St. Gallen, Switzerland.
